

## **MedInvent, LLC announces issuance of new US patent 8,925,544**

**January 6, 2015, Medina, OH.** MedInvent, LLC announced today the issuance of US Patent 8,825,544 Portable Nebulizer Device.

William Flickinger, Managing Partner at MedInvent, LLC noted: "We are pleased that this patent extends the intellectual property protection surrounding the Nasoneb technology and provides clear protection for existing products and future products in our development pipeline."

The NasoNeb Nasal Nebulizer is available by prescription-only compounding pharmacies across the US and in select countries.
